

Simitar Future Shock Short Kit parts

Modifications to plans:

- 1) Nose ring section changed since outrunners are now the standard 3/16" ply motor mount piece has been removed, and the fuse lengthened 3/16" to compensate. 1/4" balsa ring and 1/8" ply ring have not been changed, will work with electric, glow or gas.
- 2) Holes in former #2 is not cut, since outrunner mounts to it now, same with glow or gas engine.
- 3) Hole in former #3 has been enlarged for more air flow or tank access.
